

KITTEN PURRFECT.....

Instructor.... Kristin Ullicny

WE DON'T FORGET OUR FELINE COMPANIONS ☺

This exciting new class works to build a great relationship and foundation for learning with early socialization while keeping everything FUN and POSITIVE

- Open to kittens 8 weeks to 6 months
- Kittens will engage in appropriate play with other kittens as well as learning to be handled by their owner and others in the class
- We will discuss different behavioral and medical topics at each class that will educate you as an owner and prepare you for life with your new kitten...
 - *these include, but not limited to proper use of scratching post, alternatives to declawing, inappropriate biting, inappropriate urinating/defecating outside the box, identifying behaviors in your cat*
- We will also introduce mock veterinary exams, play pass the kitten, teach trimming nails, and lots of other informative and life building skills.
- Introduction to trick training and agility is also covered ☺
- This is the class that starts our feline companions on the road to proper socialization, helps them learn appropriate responses to their owners and classmates, and builds self-confidence in one of the most important socialization periods in the life of our feline companion leading to a well-rounded member of the family.
